

I am outraged at the fact that cbs is allowing Dan Rather to continue to report the news, which impacts the entire nation, when he has been involved in a scandal over producing and exposing false documents. I want to emphasize that I will no longer depend on cbs for my daily news. Disregarding this situation by allowing Dan Rather to remain on air will greatly is a blatant disregard of ethical standards. It is a networks responsibility to thoroughly investigate and verify all statements made. Not taking serious action in this situation will cause many Americans to question the standards set for our nations news shows.
